Important Notices

Please read the notices before making your entries

Veterinary Regulations

Exhibitors are notified that the veterinary regulations may have to be changed if the situation changes. Exhibitors should therefore consult their veterinary offices near the time of the Show to ascertain whether any changes in these regulations have been made.

Movement of livestock

1. Exhibitors are reminded that all movement of Cattle, Sheep, Goats, Pigs, Camels, Donkeys and Poultry to A.S.K Showground must be on Movement Permit in addition to any other permits called for. The movement of Horses is not normally governed by permit except when originating from a quarantine area. Horses, donkeys and camels from an area in quarantine for ulcerative lymphangitis and foot and mouth disease will not be permitted to attend the Fair even if they themselves are healthy. The original of the permit must accompany the livestock to the Showground.

2. Livestock may only enter the Showground through the Kibera Livestock Gate. This applies to all Livestock whether in classes or demonstration on trade stands. Cattle will be permitted to enter the Showground through the spray race and after they have been thoroughly soaked with acaricide solution. Cattle not accustomed to spray races may be hand sprayed under the supervision of the Veterinary officers. Livestock will be permitted to enter the Showground up to noon on Tuesday of the Fair except carcass animals which will be weighed on Monday 3.00 p.m. Exit either through Kibera gate or “E” gate. Gate passes are required for Fatstock.

Anthrax
3. Cattle owners are advised to have their cattle vaccinated against anthrax not more than 6 months and not less than 14 days before the Show.

**Lumpy Skin Disease**

4. There will be no movement of cattle to A.S.K. Shows from farms in full quarantine of lumpy Skin disease.

5. Cattle from farms in provisional quarantine for this disease will be allowed to attend A.S.K. Shows **ONLY** if they have been inoculated with lumpy skin disease vaccine not less than 12 months before movement and provided of course that no case of lumpy skin disease develops on the farm in the period between inoculation and the Show.

6. Farms which have received cattle within the last three months from farms subsequently put in Quarantine for lumpy skin disease will only be allowed to move if cattle had been inoculated against lumpy skin disease 30 days or more before movement.

7. It is the responsibility of cattle exhibitors to approach their local veterinary officers for vaccination against Lumpy Skin Disease. A **ONE-MONTH'S** notice of intended vaccination **MUST** be given.

8. Vaccination will be undertaken by officers of the Veterinary Department but will be on Inoculation fee.

9. In any district in which there is lumpy Skin Disease present, all movement of cattle will be by lorry or rail trucks. The route to the station and from the station will be at discretion of the veterinary officer in charge of the District.

10. There will be no restriction on the movement of Horses, Camels, Donkeys, Sheep, Goats and Pigs to the Show on account of lumpy Skin Disease.
Foot and Mouth Disease

11. Foot mouth disease vaccine is not considered to be effective in Pigs and therefore no pigs originating from farms within a ten-mile radius of an outbreak of foot and mouth disease may attend A.S.K. Shows.

12. Cattle, Sheep, and Goats originating from farms within a ten-mile radius of an outbreak will not be allowed to attend any A.S.K. Shows. This regulation may, however, be relaxed in the case of cattle sheep or goats if the veterinary officer is able to support a request for such relaxation of this ruling by submitting all relevant details through his County Director of Veterinary Services.

13. All cattle sheep and goats must be inoculated with Foot and Mouth Disease vaccine types “A”, O and SAT 1 and 2, not less than 20 days and not more than 60 days prior to the Commencement of the Show. Vaccination against “C” and SAT 1 will be at the discretion of the County Director of Veterinary Services.

14. Adult cattle originating from farms in compulsory vaccination areas need not necessary be re-vaccinated even if the last vaccination was performed over 60 days previously providing that the animals have been vaccinated, at least twice routinely with type “A” O and SAT 2. A ruling on each case will be given by the District Veterinary Officer.

15. Cattle originating from the compulsory vaccination areas may be permitted to attend any Show provided that they do not come from within 5 miles of any animals infected with Type “A”, O and SAT 2 Foot and Mouth Disease. In the event of an outbreak due to any other types of foot and mouth disease the ten-mile rule will continue to apply. This concession shall only apply to cattle originating from herds that have been vaccinated at least twice against the type involved in the outbreak.
**Important Notices**

16. It is the responsibility of exhibitors to have their cattle, sheep and goats vaccinated against Foot and Mouth Disease and this will only be undertaken by an officer of the veterinary Department, and then a certificate must be obtained signed by a private practitioner stating that it has been accomplished. Charges are made for the cost of vaccine.

17. Exhibitors of horses, donkeys and camels are requested to ascertain from their local Veterinary officer, the foot and mouth disease regulations concerning these species.

   (a) Because of the danger of “mechanical' spread of the disease (e.g. on the feet of visitors) the Show veterinary staff may have to take special precautions.

   (b) The precaution may necessitate the establishment of disinfectant barriers, at all entrances to the Showground. At these barriers visitors will be required to walk through a layer of straw soaked in a 4% sodium carbonate (Magadi Soda) solution.

**East Coast Fever**

18. All stock including Horses must be tick free before acceptance onto the Showground.

19. Exhibitors are notified that these Veterinary Regulations may have to be changed if the disease situation changes. Exhibitors should therefore consult their local Veterinary officers near the time of the Show to ascertain whether any changes to these regulations have been made.

20. Livestock will not be permitted to move to the Showground if they originate from a farm in quarantine for a notifiable disease affecting their species.
General

21. Exhibitors are warned when requesting permits that, animals with active skin disease or unsightly skin conditions and in the case of cattle with active foot rot (F. necrophorus) infection will not be permitted to enter an A.S.K. Showground. Routine examination of Exhibits before movement is not considered necessary unless the veterinary officer has reasons to believe that permission is being sought to move an animal that is not healthy or that does not comply with A.S.K Show rules, the Show veterinary officer have the right to debar entry into the A.S.K. Showground of any stock suffering from an unsightly condition i.e. Skin Disease, Debility, e.t.c.

22. In the Horse, Cattle, Sheep & goats, pigs and poultry classes, owners are responsible for seeing that their animals are inspected by an official veterinary officer of the Show at the time of entering the Show ground and a duly signed certificate of entry issued, Failure to comply with this rule may disqualify such animals from participation in all Classes for which they are entered.

Permits

23. No cattle sheep or goats are permitted to travel to the A.S.K. Show unless covered by a Certificate of inoculation with foot and mouth disease vaccine as required by the 13 and 14 above.

24. Exhibitors are informed the original permit together with, in the case of cattle, Sheep and goats the foot and mouth disease inoculation certificate MUST accompany the animals concerned and be presented to the veterinary officer in-charge of the Show on arrival. Failure to observe this requirement may involve the exclusion of the exhibit from the Show. A duplicate copy of the foot and mouth inoculation should be filed by the Branch Manager, Nairobi International Trade Fair, P. O. Box 21340, Nairobi by the Veterinary Officer giving the inoculation.

25. All exhibitors must sign a certificate to the effect that to the best of his/her knowledge the stock are not suffering from any infectious disease and give this certificate for presentation to the person in-charge who is accompanying the stock to the Show.
26. These regulations are subject to change and exhibitors will be advised of any such change through the respective District Veterinary Officer. It is nevertheless advisable that exhibitors consult their respective veterinary officer during the preparatory stage and preferably not less than two months before the commencement of the Show.

27. All livestock will be inspected by an Officer of the veterinary department at the Livestock gate (Kibera gate). In addition to inspecting the stock the Officer will require to see the various Certificates and permits referred to in these regulations. No entry will be permitted to enter the Showground unless such certificates and permits are in order.

28. **Veterinary Arrangement**

(a) A veterinary surgeon will be on duty to receive animals. Exhibitors must arrange for their A.S.K. Veterinary certificate to be produced when the livestock arrive at the Showground.

(b) There will be a veterinary surgeon on duty throughout the period of the Show.

(c) Exhibitors must report any sick animal to the veterinary officials at the Showground as well as their private veterinary surgeon.

(d) All livestock must enter the Showground through Kibera gate only, except horses that may enter through “E” Gate.

29. **Artificial Insemination**

An inseminator will be on duty at the Showground from Monday to Sunday of Show week, both days inclusive. Exhibitors may bring their own artificial inseminations sets with them or may purchase sets from the inseminator who will have a supply for sale at the normal Kenya National Artificial Insemination Services price per set. Exhibitors who anticipate requiring nominal services during the Show should make written applications to the Director of Veterinary Services by mid September, where upon arrangements will be made to have the required semen available at the Showground for the period of the Trade Fair.
30. General Instructions

Road Transport Subsidy

PLEASE NOTE: THE PAYMENT OF TRANSPORT SUBSIDY WILL BE DONE STRICTLY ACCORDING TO THE BELOW OUTLINED RULES AND NO OTHER CLAIMS WILL BE ENTERTAINED OR CONSIDERED.
